Who We Are

ATNA Systems is a Service-Disabled Veteran-Owned Small Business and global solutions provider of logistics, procurement, engineering, and mission support services. Our team is comprised of military veterans, law enforcement, and specialized private-sector personnel with critical mission-support backgrounds. We work directly with clients to develop scalable, cost-effective solutions designed around existing and foreseen needs.

Our Approach

We combine kinetic and technical capabilities to design customer-specific solutions that apply real-world experience and are proven to work efficiently.

15+

Years of experience

WHAT WE DO

Core Competencies

Logistics & Supply Chain

End-to-end supply chain visibility and management — from procurement through warehousing, inventory, and last-mile delivery into remote and challenging locations.

Procurement

Sourcing and movement of highly regulated commodities in and out of remote, conflict, and post-conflict regions, backed by direct partner relationships.

Engineering & Platforms

Design and integration of manned and unmanned ISR platforms — from initial build to modification — into customer CONOPS as force multipliers.

Mission Support

Defense, diplomacy, and international-development support: contingency operations, platform support, training, and mentoring that reinforce stability.

Logistics & Supply Chain

Our logistics and supply chain solutions, combined with our technologies, give clients full visibility of their supply chain from beginning to end — and direct partner relationships at every node.

Full Network Visibility

Technology-enabled tracking from origin through last-mile delivery.

Regulated Commodity Movement

Procuring and moving highly regulated shipments in and out of remote, conflict, and post-conflict regions.

Warehousing & Inventory

On-site inventory management and warehousing technologies and resources.

Fleet & Asset Management

Managing people and high-value assets for fleets worldwide.

Government & Mission Support

ATNA's government services group works in support of U.S. national security and foreign-policy objectives — delivering solutions for defense, diplomacy, and international development.

Contingency Operations

Major programs in logistics, platform support, and contingency operations worldwide.

Training & Mentoring

Building partner-nation capability to reinforce security, community stability, and rule of law.

ISR Platform Integration

Inputs into design and integration of manned/unmanned ISR platforms into customer CONOPS.

Emergency & Disaster Response

Extensive experience from haul-and-install missions to full program management.

Our Differentiators

Veteran-Led Team

Operators, support staff, and leadership sourced from Special Operations, military, and law enforcement.

Global Reach

Vast international experience operating in austere environments, with direct partner relationships worldwide.

Tailored Solutions

Scalable programs built around each customer's existing and foreseen needs — not off-the-shelf.

Partner Network

A robust team of partner organizations offering multi-mission aircraft, training, logistics, and staffing depth.

Compliance & Ethics

Stringent vetting and training; fully compliant with government regulations, international and human-rights law.

Real-World Experience

Combining kinetic and technical capabilities to deliver long-term, cost-effective programs that work.

TRACK RECORD

Experience & Clients

Aviation Program Development

Maturing Concepts of Operation into comprehensive nationalized programs.

Disaster Response Awards

Multiple awards across multiple locations — haul-and-install to program management.

ISR Platform Integration

Advising U.S. and partner-nation commanders on ISR platforms as force multipliers.

Protective & Security Services

Executive protection and cargo security from vetted, specially trained teams.

Remote-Area Sustainment

Procurement, warehousing, and inventory in challenging environments.

Training & Capacity Building

Programs that strengthen partner-nation security and rule of law.

CLIENTS INCLUDE

U.S. Marshals Service · Dept. of Justice · DEA · Dept. of Homeland Security · U.S. Army · U.S. Navy
